March 2024 TIP SUMMARY

In March 2024,
Courage2Report
received **120** tips.

Compared to last year,
(**144** tips in March 2023),
we saw a **16.67%**
decrease in activity.

Bullying was the number
one most reported tip
type this month, same
as March 2023.

Tips by the Day

In March, Thursday was the day of the week with the most tips reported. This is a change from last month. Most tips were received on Friday during February 2024.

Tips by the Hour

In March, the busiest time of day was between 11:00am and 3:59pm.

Preferred Tipping Method

Reporting from a computer's browser was the preferred way to submit tips in March.

HandleWithCare (HWC)

In March 2024, we received **14** HandleWithCare tips.

In March 2023, we received a total of **17** HandleWithCare tips.

Did you know? In some areas, HWC includes other First Responders, such as EMS and Fire.

The “HandleWithCare” Model:

If a law enforcement officer encounters a child during a call, child's information is forwarded to the school before the school bell rings the next day. The school may implement individual, class and whole school trauma-sensitive curricula so that traumatized children are “Handled With Care.” If a child needs more intervention, on-site trauma-focused mental healthcare is available at the school.

What can the tipster see?

What the tipster **CAN** see:

- Any dialog and any changes made in the dialog tab
- Any attachments they add

What the tipster **CANNOT** see:

- The original tip or any changes made to the tip i.e., grammatical corrections and sanitization of the tip.
- Any attachments C2R staff, school admin, or LEO add to the tip.
- Team Communication (this is for conversation between C2R staff, school admin, and LEO. NOT the tipster).
- Dispositions (remember C2R does not evaluate dispositions, we just log that one was received).

Suicide Prevention & 988 Guide for Missouri Schools

Please click on the buttons below to access the materials.

The Missouri Suicide Prevention Network (MSPN) proudly presents **the second edition of the Suicide Prevention & 988 Guide for Missouri Schools**. The guide aims to aid school administration, faculty, and staff in implementing suicide prevention, crisis intervention, and postvention efforts within their communities. Additionally, it promotes 988 as an essential resource for all members of the school community, from parents and students to teachers and coaches.

Violent Online Groups Extort Minors to Self-Harm and Produce Child Sexual Abuse Material

The FBI is warning the public of violent online groups deliberately targeting minor victims on publicly available messaging platforms to extort them into recording or live-streaming acts of self-harm and producing child sexual abuse material (CSAM). These groups use threats, blackmail, and manipulation to control the victims into recording or live-streaming self-harm, sexually explicit acts, and/or suicide; the footage is then circulated among members to extort victims further and exert control over them. <https://www.ic3.gov>

Introducing the *FREE* School Threat Assessment Toolkit!

Developed by experts Dewey Cornell and Jennifer Maeng, in collaboration with school safety leaders and government agencies, this toolkit is your comprehensive guide to implementing behavioral threat assessment in schools. It offers practical resources and training materials to support your violence prevention efforts while ensuring student rights are upheld.

The toolkit explores these three areas:

- **Selecting and Training Your Threat Assessment Team:** Learn how to assemble and train a competent threat assessment team tailored to your school's needs, emphasizing equitable implementation and community support.
- **Implementing Threat Assessment:** Gain insight into the principles of threat assessment, including identifying typical pathways to violence, crucial for enhancing your school's safety plan.
- **Evaluating Program Effectiveness:** Discover strategies for evaluating the effectiveness of your threat assessment program, covering topics such as fidelity to implementation and its impact on students. [School Threat Assessment Toolkit](#) ← LINK!

FBI Reports Increase in Hate Crimes at U.S. Schools

After the categories of residence/home and highway/road/alley, school was the third most common location for a reported hate crime offense to occur during the five-year period of 2018 to 2022. Hate crime in school comprised as much as 10 percent of all reported hate crime offenses in the most recently observed year of 2022. Transcending a basic count, this report analyzes the occurrences and fluctuations of hate crimes reported in the school environment from 2018 through 2022, and their specific bias motivations.

Table 1: Total Reported Hate Crime by Year, 2018-2022

Year	Incidents	Offenses
2018	7,181	8,492
2019	7,874	9,132
2020	9,949	12,895
2021	10,891	12,470
2022	11,643	13,346

The UCR Program provides three school-related options regarding the location where an offense occurred:

- School – Elementary/Secondary
 - Defined as institutions for the instruction of children from preschool through 12th grade.
- School – College/University
 - Defined as institutions for the higher education of individuals, which gives instruction in specialized fields; community colleges; trade schools.
- School/College
 - Unspecified definition.

Prior to 2010, School/College was the only data value for the location data element indicating a school as the location of a criminal offense and was used for all school locations, regardless of the age or advancement of enrolled students. In 2010, School – Elementary/Secondary and School – College/University were added as data values to distinguish the demographics of the enrolled students at the location of school-related offenses. Although agencies are encouraged to specify Elementary/Secondary or College/University when designating school as the offense location, the original comprehensive School/College location is still an option.
